Following discussion on the subject, Dr. Beck will be provided data regarding case filings from June 2010-November 2010, and William Scanlon will work with him to reconcile any differences.

Dr. Wells reported that he will be able to provide an initial estimate of case disposition timing to the Executive Committee by December 27 for review.

There was a general discussion regarding the need to consolidate the efforts of the Juvenile Justice committee, the Juvenile Justice - Child Protection Roundtable, and Youth Impact, and try to get greater participation in the resulting committee(s).
